Introduction

The Hamilton-Wentworth Access Guide has been developed to provide information on the accessibility of buildings for those persons with mobility impairments, and to increase public awareness of the structural barriers that may exist.

Information for the guide was obtained by researchers who conducted physical site surveys of more than 500 buildings. Of these, approximately 350 were rated accessible by Ontario Building Code (1987) standards. All categories, for example Banks, Places of Worship, Hospitals etc. were surveyed within each municipality of Hamilton-Wentworth.

The Access Guide neither recommends, nor condemns, any of the buildings, but attempts to give a factual description of conditions as they existed at the time of the survey. Please note that frequent structural changes do occur and it is

acknowledged that some of the information in this guide may be out of date by the time it reaches you.

If you have suggestions for additions to this guidebook, please contact the Ontario March of Dimes, Hamilton Regional Office.

The Access Guide Advisory Committee hopes that Access Hamilton-Wentworth will prove to be an important instrument in assisting persons to travel with dignity and independence.

This guidebook has been sponsored by the Office of Disabled Persons, the Ministry of Community and Social Services, the Rotary Club of Hamilton, the Rotary Club of Hamilton Mountain, Amity Goodwill Industries, and the Ontario March of Dimes.

General Building Criteria

The following categories listed in Access Hamilton-Wentworth are commonly featured in most locations. Each category has a distinct criteria which determines its rating.

- N**
- > Unevel and unramped access.

Attractions

Art Galleries/Museums

Most places which would be of special interest to people living or visiting in the Hamilton-Wentworth Region, including the main tourist attractions were surveyed and rated. The General Building Criteria covers each category except displays. The rating for displays is only a general indication of accessibility because of the wide variety of display modes.

Displays

- Y** > Tables and counters no higher than 815 mm with at least 615 mm leg clearance.
- > Displays clearly visible from sitting position.
- U** > Tables and counters no higher than 915 mm.
- > Leg clearance no less than 615 mm.
- > Attendant available for higher displays.
- N** > Tables and counters higher than 915 mm.
- > Less than 615 mm leg clearance.
- > Displays not clearly visible from sitting position.
- > Attendant not available.
